

T-110 Dupli-Carver

Our Model T-110 Dupli-Carver is designed to fill the needs of a hobbyist or craftsman with the same accuracy and versatility of our professional models. The T-110 is a lighter machine and used on a table, bench or stand and requires a work area of only 2' x 4'. The machine sits on skid resistant rubber feet under the leg base boards so the machine will not slide or damage your bench surface.

Steel Finish	Baked Enamel
Carving Capacity	8" Dia. x 18" Tall
Spindle Capacity	8" Dia. x 30" Long
Weight	37 lbs
Carton Size	27" x 22" x 2-1/2"

T-110a Spindle Carving Option

The T-110a Spindle Carver expands the capabilities of the T-110 to 30" long by 8" diameter. The carriage consists of a set of tubes that slide through the table legs and cross members that support the work pieces in a horizontal position. Table legs, candle holders and gunstocks are easily and accurately carved with this accessory. Both turn tables are linked together so that the objects rotate in unison through 360°. The carriage slides forward and back to allow you to carve the entire 30" length without remounting the work piece. Comes complete with operating instructions and all assembly hardware.
